### **Bad voting records blow up in legislators' faces as Idaho nears primary elections**

Date: Thursday, February 24, 2022

Time: 10:00 a.m.

Where: Idaho State Capitol Rotunda, First Floor

Speakers: Steve Majors, ICGG  
Miste Karlfeldt, Health Freedom Idaho  
Fred Birnbaum, Idaho Freedom Foundation

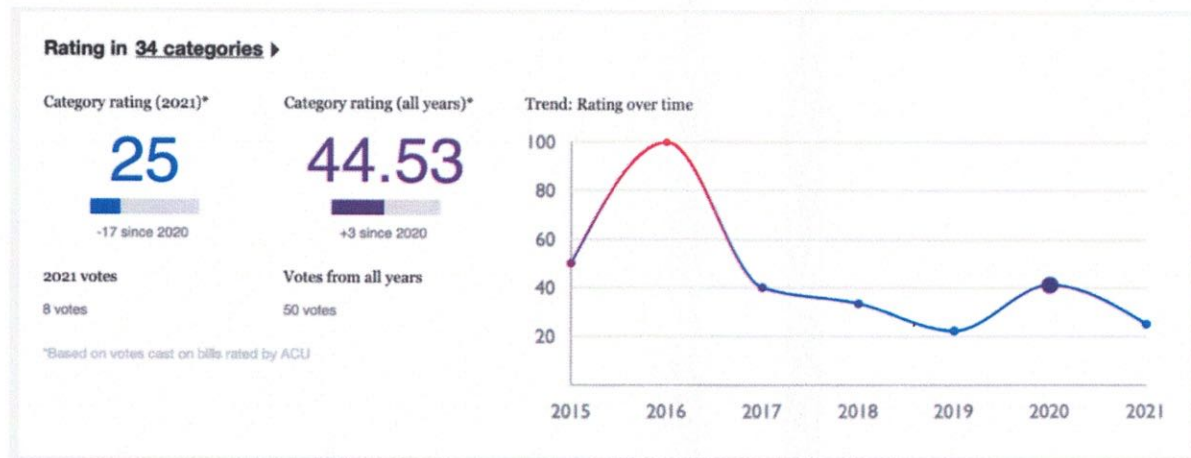

#### Focus:

In a state where it is said that some 70% of Idaho's voters are conservative, we wonder why and how it is that the legislature of Idaho as a whole is anything but conservative, and why it fails to represent the values and beliefs of most Idahoans. Examples will be given, and standards for evaluating will be described, in a *non-partisan* effort to assess those we have voted for, and help us all decide wisely our upcoming vote in May's important primary election. We encourage all to examine their own legislators' performance. With this press event *Idaho Citizens for Good Government* kicks off an all-out effort to educate the public by way of an *8 ft. high x 24 ft. long* dramatic display, to the end of improving our Legislature by rejecting those who fail to respect the voice of the people they represent, and fail to honorably perform according to their oaths of office while in their roles as lawmakers. Idaho voters have a critical choice to make in May's primary election: elect public servants who will truly fulfill their duty on behalf of the people, or continue voting for those who speak a good campaign message but whose voting record stands in contrast to their words and actions.

Idaho House Leader Scott Bedke according to “Taxes, Budgets, and Spending”, and the American Conservative Union tells all. And can you imagine this is the leader of our lawmakers in our Idaho Legislature?

This is a far cry from what Conservatives think they are getting. His average score from the Idaho Freedom Foundation, who tracks how legislators vote on Idaho's bills, is a whopping "D-". *That's a big D with a Minus behind it.* For all intents and purposes that is an F grade. A failure. Let that sink in. Is that someone who follows the Idaho Republican Party platform, which reflects the principles and values of the people who are conservative and Republican and make up 70% of the state's voters!

# insurgent adjective

## Definition of *insurgent* (Entry 2 of 2)

: rising in opposition to civil authority or established leadership : [REBELLIOUS](#)

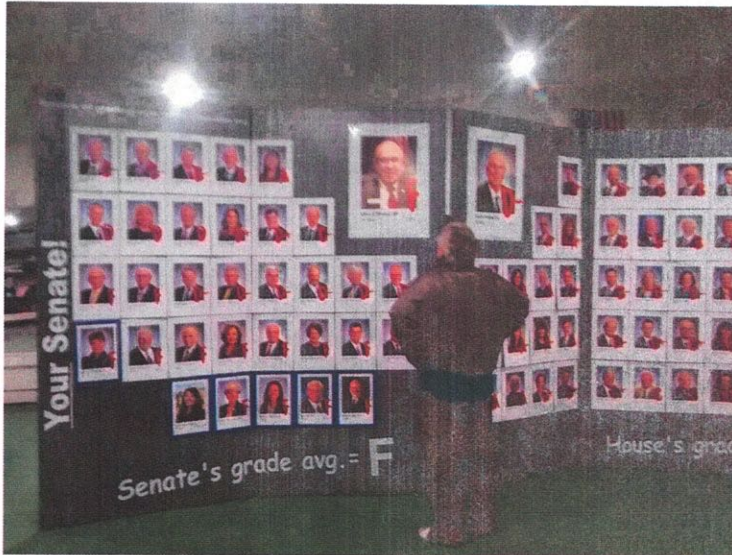

Let's talk about Idaho House Leader Scott Bedke, Senator Chuck Winder, and a whole raft of other Idaho's legislators being in rebellion to the Republican Party Platform that was put in place reflecting the desires and needs of the vast majority of Republicans in the state. In reality they have left a whole lot of the 70% conservative Republicans here out in the cold while they pursued their own agendas, not the agenda of those who saw them be elected. That must come to an end.

# What is ICGG all about?

Idaho Citizens for Good Government is a loose association of generally conservative voters that are very concerned about how we are being deceived by Republican Candidate rhetoric that induces us to vote for Republican's in Name Only (RINO). We feel we must take action this election period in order to prevent a catastrophic loss of republican government in our state.

## **Our Mission:**

Expose the failure of elected officials in Idaho to represent and protect the rights of its citizens.

elected officials who show commitment to the proper role of government and the principles of true republicanism, not party

## **Our Goals:**

- Document instances of elected officials failure to adhere to the proper role of government
- Provide a means for citizens to expose elected officials, agency, and bureaucratic misconduct.
- Expose the behind-the-scenes influence of money interests on government
- Promote transparency and accountability in local and state government
- Establish a program to honor those

ICGG is NOT a Political Action Committee. It is NOT a partisan entity. Many candidates are using the 2 party system to fool voters that aren't watching voting records but simply voting on party lines. Because the popular media is largely helping this misrepresentation, RINOs (Republican's In Name Only) are sabotaging the 2 party system and are working to remove honest Republican's from office. This activity thwarts true representative government and threatens our freedoms and rights that were hard earned by our forefathers.
